I will talk about this watch

This is very special to me. I asked my parents to buy one for me when I was in elementary school. They didn't say OK at first. However, when I became a junior high school student, my parents finally bought this for me as a gift. I was very happy and thanked them a lot.

There are three good points about this watch. First, I like its black color. It's very cool, right? Second, it helps me wake up every morning with a nice sound. Third, it is safe in water, and this is the most important point for me. Actually, I wore it when I went to the beach last summer, and it didn't stop working after I swam.

I really like this watch and I want to keep using it for many years. Thank you for listening.
